## Limitations of Grid Electricity

There are a few things that are stalled in grid electricity efficiency:

- X *2-3 weeks electricity wait time***  
even after the permit is granted
- X *> 1 month electrician wait time***  
depending on supply of local labor
- X *Min. €3500 cost each time***  
for the most basic distribution box
- X *Annoying cable management***  
causing risks and chaos

## Fixing Off-grid Experience

Generators are outdated dinosaurs that have not changed for decades, yet still carry over their problems into a new age:

- X *Restrictions on usage***  
prohibited in urban areas
- X *Complex setup***  
open-air, surfaced ground, long wiring
- X *Safety hazards***  
toxic emission, too bulky to move
- X *Expensive maintenance***  
~€2200 for 5-6kW diesel generator per year

# EcoFlow's Solutions

*Ready Now*

**Delta 3 Ultra Plus**  
Ultra Long-Lasting

*Coming Soon*

**ACE 5000**  
Industrial-grade Power

# Delta 3 Ultra Plus

## Product Appearance

# Delta 3 Ultra Plus

For B2B Clients only

**3600W**  
Rated  
Output

**7200W**  
Peak  
Output

**89mins 0-80%**  
Fast  
Recharge

**3072Wh**  
Capacity

**3-11kWh**  
Expandable  
Battery

**3+2 year**  
Warranty

Power over 90% of jobsite power tools

Hammer Drill

Circular Saw

Battery Pack

3.6 kW rated / 7.2 kW peak power

# Fast charging methods. Be prepared faster with strong, stable power

## AC Charging

Fast charge with X-Stream technology. 0 to 80% only in 89 minutes. Workers are able to **charge up the battery right before work or during lunch.**

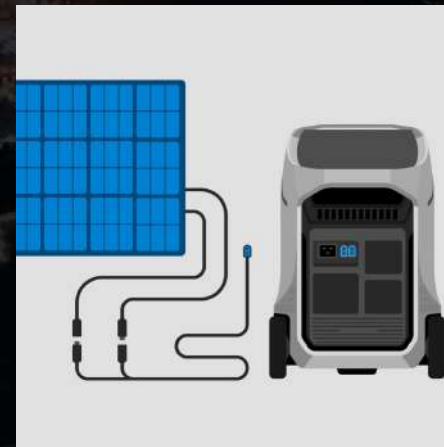

## Alternator Charging (1000W)

Just the right amount of output to **charge up during commute**, hence extend the usage on the jobsite.

## Smart Generator Charging

Hybrid Power with generator, Stay powered even without sunshine, with app control and compatibility with third-party generators.

## Solar Charging (1600W)

With 1600W solar input via dual MPPT ports, gives you a faster and more flexible solar setup.

More power, longer peace of mind

## Delta 3 Ultra Plus

3072Wh

Expandable

Max. 11kWh

# Built to Last. Engineered for Life

## Durable LFP battery

3+2 years warranty

## Automotive-Grade CTC Structure

Built with a rugged automotive-grade CTC (Cell to Chassis) structure, the battery is shockproof, drop-resistant (up to 0.2m), and supports up to 100kg surface load—ensuring stable performance anytime, anywhere.

## Extreme Environment resistance

Operating temp: Discharges from -10 °C; charges 0–45 °C

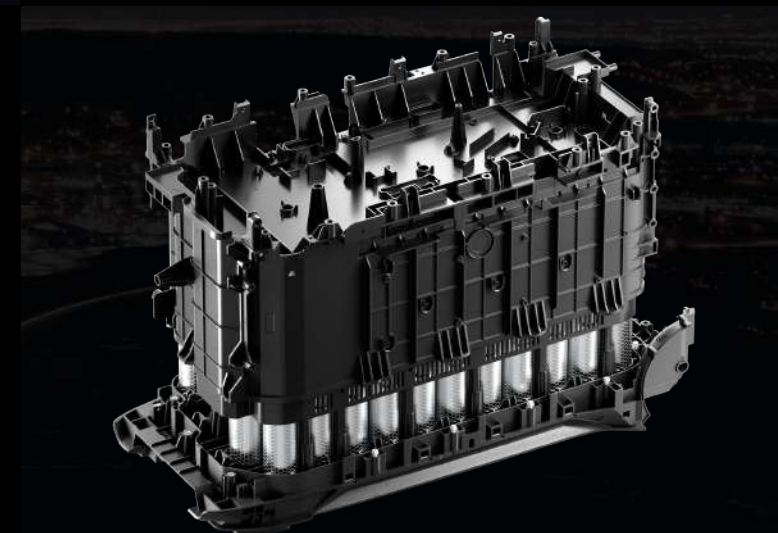

Storage temp: -10 °C to 45 °C

Humidity: 20 %–95 % RH, ready for damp camping nights

Salt spray: Passes 5 % NaCl test—built for seaside life

## ≤30dB Whisper-Quiet Operation

Powered by X-Quiet™ 3.0 cooling technology, it stays whisper-quiet—below 30 dB, even while running

## Smart App Control

Convenient to use with **Wi-Fi or Bluetooth**: connect with your smartphone.

Easily **check your charging data, customize settings** and **adjust the charging speed**.

## Stackable Design

Stackable design, easy to carry around jobsite

## Delta 3 Ultra Plus

<b>Capacity</b>	3072kWh
